Executive Vice President and Chief Financial Officer
United States Steel Corporation
600 Grant Street
Pittsburgh, PA 15219

**Re: United States Steel Corporation
Form 10-K
Filed February 24, 2015**

For receiving the information you provide in response to these comments, we may have additional comments.

Form 10K for the year ended December 31, 2014

4. Consolidation of U.S. Steel Canada and other args, pag F -17

1. We have read your response to comment 4 in our letter dated July 16, 2015. Please explain to us how you reasonably determined that the fair value of the USSC assets substantially exceeded carrying value at September 16, 2014, so that there would be enough cash available for you to recover the \$434 million. In this regard, please discuss the material assets that you concluded had fair values greater than carrying values at the CCAA filing date and provide us an analysis of the USSC asset with the largest excess of deemed fair value over carrying value along with your calculations and assumptions that support that conclusion. Tell us what specifically happened in the three months ended June 30, 2015 that indicated that your prior fair value estimates were not accurate.

Mr. David B. Burritt
