As of September 30, 2013, U. S. Steel had \$697 million of cash and \$2.4 billion of total liquidity.

Reportable Segments and Other Businesses

Our Flat-rolled segment results from operations improved versus the second quarter due to an increase in average realized prices and lower repairs and maintenance costs partially offset by reduced shipments. Average realized prices increased compared to the second quarter due to higher spot market prices. Shipments decreased significantly due to a planned blast furnace outage at our Great Lakes Works and the Lake Erie Works labor dispute. A successor agreement was reached in August with blast furnace pro~~toe~~ Works and eie Works labor d~~fr~~ oouust tk xf ac~~s~~ e due to~~from~~ opeuteat Lrt onseas result~~ts~~ed signifi~~tc~~

CONDENSED BALANCE SHEET (Unaudited)

The figure consists of ten horizontal light blue bars of varying lengths, arranged vertically from top to bottom. Each bar ends with a black vertical tick mark. The bars represent data points, and the length of each bar corresponds to the value of that point. The last bar in the sequence ends with a short blue tick mark.
